THOUGH THE ABSENCE OF HEADMASTER MARTY DOGGETT WAS NOTICABLE IN THE FALL, THE LAST CLASS TO BE KNOWN AS GRADUATES OF GOVERNOR DUMMER ACADEMY WORKED HARD TO REINVIGORATE THE CAMPUS WITH AN OVERWHELMING SENSE OF SCHOOL SPIRIT.

FROM A PRANK ON BROOKS AND AN ENTHUSIASTIC PEP RALLY IN THE FALL, THE INCORPORATION OF THE LIGHTS, CAMERA FOOD! SERIES IN THE WINTER AND THE ENTERTAINING MORNING MEETINGS THROUGHOUT THE YEAR, THE ENERGY ON THE GDA CAMPUS WAS UNDENIABLE.

In an office is a man whose dedication to Governor Dummer Academy is unrelenting. His responsibilities are immense. His dedication is unwavering, and his efforts to better the community are genuine. Although his every contribution to the school may not always be apparent to many of us in our everyday lives, he is the man who burns the midnight oil on a consistent basis so that stability and order are preserved at the Academy. Naturally, people may not always agree with every decision that he makes, but his position carries with it the burdens of a leader. We have always appreciated that he regards every member of this community as an extension of his own family. His family virtues transcend the domain of his own house to all on campus.

He continues to work in such a stressful and demanding position because of one thing: he loves it. From granting Kudos bars at Monday morning meetings with his wobbly tosses to worthy recipients, to opening his home every Saturday night for Mansion House, his love of GDA is apparent to all. The compassionate side of this die-hard Yankees fan is evident in the warm smile he wears whenever he greets us. Not every person can do what this man does day in and day out, year after year. Although his actions may, on occasion, be taken for granted, they should never be unappreciated.

The 2006 Milestone is
dedicated to
John "Marty" Doggett

His true passion for doing all that he does for us was tested earlier this year when a serious illness kept him away. His absence was felt by all, as the man we always expected to be there, wasn't. It was felt at the very beginning of the year, when his presence was missed at Brantwood, and it was felt every day until the moment he resumed his duties once again. Making videos and cards for him while he was away was our attempt to demonstrate how important he is to everyone here and how much he is cared for by all.

Now that he's back, he has resumed his duties and things seem more like they used to be. The school, the community, is whole again. Seeing him in his office with his door wide open once again is a comforting sight. His return to GDA has completed our community.

That's why the class of 2006 believe that the most deserving recipient of this year's Milestone dedication is our Headmaster, John "Marty" Doggett.

BRANTWOOD

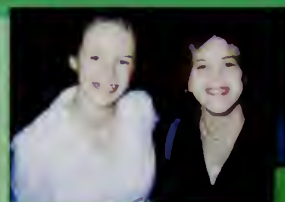

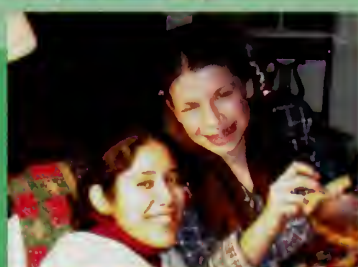

Our class easily tackled the grueling terrain on a six-mile hike rivaling that of Mt. Everest. But our class trip was not all about shacking up with no electricity and avoiding Triple E infested mosquitos.

Dummer Dialogue

words from the
class of 2006

I am here today to talk about life. When I say life, I mean my life because my life is great. And besides I'm the one with the mic and there is nothing you can do about it....If you see an opportunity to create a memory, don't hesitate.

-Zach Samson

Find something you love. Something that makes you happy and do it. If shooting hockey pucks eases your mind, then don't be afraid to go down to the hockey rink to shoot pucks...Go ahead and step outside your comfort zone. Don't be afraid to act a little wierd at times. As a wise man once said, if we weren't a ltittle crazy we would go insane.

-Mark Rinaldi

It is important to make the most of the daily oppurtunites that present theselves. So, play every shift like it is your last.

-Rossli Chace

...and the Marty's smarties goes to Jared Wood, for waking up at 3 o'clock in the morning fully dressed and ready to go on daylight savings day because he set his clock back 3 hours instead of one.

-Liza Tarr

Mom, Dad and A.A.: Thank you for being related to me all these years. I'm lucky to have parents and a sister who I actually like, believe it or not. You're my family and my friends, and I love you all too much. **Kristina:** So far we've baked a billion Toll House cookies, become the world's oldest junior rangers, toasted things on an iron, eaten a wasp's nest, sung an amazing duet in our pajamas, gotten hives, made poisonous rolls, and worn dumb hats at the

zoo. I truly couldn't ask for a better cousin or friend. **Mackenzie:** Shmoopie, somehow we've managed to fit an astronomical amount of best friendship into a few short years. Imagine what we could do with that amount of time to the 8th factorial! Anyway, whether we're in Byfield, Mexico, Vermont, Andover, or scattered in New York, I bet we'll always be as close as a pair of potato heads, or the humps of a camel. Basically, like a plastic, retractable, light-up light saber, you light up my life. **Caroline deLac:** The past four years have been a musical worthy of Broadway; I'll truly miss being your co-star and neighbor. We have had so very many nice moments, like when you would watch movies and I'd nap, or when we managed to harmonize (ch-ch-ch-ch-changes), but I think I'll forever remember you as The Girl Who Made Me Cry. **Cam:** dearest Cram, if you ever need someone to share a batch of magical crumbs with, just let me know. We can wear our buildings and grounds uniforms, so that the snacks don't spill on the pretty looking frocks on our bodies. **Janet:** Time-life-time-life finally caught up with us, but you've made it incredibly fun. I especially adored our imaginary breakfasts at 7:16 every Tuesday (Happy Week-iversary, by the way). And look! We're wearing the same pants. **Emme:** You're so kind. Keep your calendar open; we've got a backpacking trip to plan. Have a jolly good time at St. Bee's; hopefully you'll find a large British hat that rivals those of the locals. **Morgan:** My twin, I'll see you in the city. You're Morgasmic, fantastic and good, and you have an unsurpassable passion for tortellini and oatmeal squares. Therefore, eye loaf ewe very much! **Caroline T:** You've got the most remarkable imagination; all you need now is a grotesque baby armadillo. **Rutter:** Not only are you an excellent physicist, late-night phone conversationalist, and Keb Mo' superfan, but you're also a pretty great person in general. It's no wonder my mom likes you so much. You'll have to let me know what tramping is like in the great state of Colorado. **Sean:** My physics buddy; we made it! **Andrew & KC:** The upstairs library would not have been the same without you. Best of luck to you both in your future P-tanks endeavors. **Charlie N:** Good friend, you can light up a room with a dollop. **Tony:** Absolutely the greatest finger painter I know. **Hunter:** Thanks for putting up with us for so long. **Mr. Wann:** Advisor, dorm parent, teacher, friend; you've done it all. Thank you a million

times. Goodbye, good luck, and thanks to Dana, Ania, Sander, Cameron, Emily, Charlie G, Esfosho, Morgan C, Maxime, Ari, Michaela, Molly B, Liana, FLIP kids, Meghan, Kelly, Mrs. White, Ms. Jara.

Kathryn Malleck

Dad- Thank you so much for all that you've done for me over the past four years, I couldn't have made it through without your encouragement and support, I'm the person that I am today because of you, love you. **Mom-** Thanks for all your support, it means a lot to me, love you. **Kathy-** It's amazing how

for us to be so insane when we're together...I LOVE it. Mexico, light sabers, sleepovers, and much more, you're my other half, and I'm so lucky to have such an amazing person as my best friend. Andover woot! **Cam-** Thanks for always being there when I need someone to talk to, whether it's about Mongolian mountain cats, color spectrum, extra crispy toast, or even perhaps something a bit more serious. Your marvelous fashion sense will take you far in life, miss you next year! **Morgan-** You're an amazing person, and your love of life is absolutely contagious. Probably the best B that bamp could ask for, I still want to adopt your mom, and you better visit me lots next year in NY. **Eric-** Thanks for being such a caring, dependable, all-around incredible friend. I can't believe how lucky I am to have you in my life...you know exactly how to make me smile. You mean so much to me. Keep being you, love you. **Delac-** Save those notes, they're obviously gonna be worth money someday. Also, you're my favorite burrower, and I'm glad we're gonna be next door neighbors at college! **Emme-** eemmaaayyyy! You're without a doubt the nicest person I know, so don't go changing. VT is the coolest. **Dana-** Good luck next year, classes won't be the same without you. **Jane-** You rock my world, literally. Yay for being sketchy...and for squash. **KC-** Thanks for your fat people philosophy and the GDA gatherings. **Rutter-** a.k.a. Teto, thanks for the baja starburst and ramen. **Sean + Andrew-** Good times in the upstairs lib. **Kpope-** You can make me laugh (or wheeze?) more than anyone...cheerio, perhaps? Miss you berry blossom! **Katherine-** a.k.a. Ginger nugget, I owned you at DDR. **CharlieG-** Basically, AP everything. It's gonna be weird not going to the same school as you. **Ania-** I'll never forget the funny/ dirty/ hilarious looks. **CharlieN-** Thanks for all the high-fives and hugs, pretty much you're the best. **CarolineT-** keep on running! **Sander-** See you at McDonalds, thanks for the sarcasm. **Scout, Jacques, Morgan-** Enjoy senior year, it goes by fast. **Hunter-** Hope you liked the fan club. **Lisa-** Annual road trips with you were the best. **MollyVR-** Significant other! **Mrs. McLain-** You were a major part in my decision to go to GDA, and I can't thank you enough for everything you've done for me. The best advisor/soccer coach I could have asked for, I honestly don't know what I'm going to do without you next year. **Prinn-** Thanks for helping me realize how much I truly enjoy lacrosse...soccer is still better though! **Soccer and lax girls:** Thanks for all the good times; you made sports at GDA an unforgettable experience. **Shoutouts:** Tony, Brent,

it seems completely normal

ZackR, Liza, Max, Dshea, Michaela, Bailey, Taylor, Anna, Cerreti. Faculty: Gettings, Mr. McLain, Hammy, Doc Brayshaw, Mr. Quigley, McCullough, Abu. **Class of 2006-** Miss you all and good luck next year!

Dad: A lot of you has rubbed off on me,

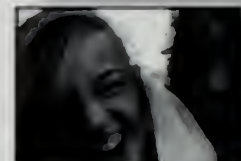

whether it be microwave behavior or music taste. I cannot thank you enough for everything.

Mom: I can't think of a better person to have nightly candlelight dinners with. We need to make sure to christen the new kitchen in Charleston with a pushing war. **Elizabeth:** My fellow Fluffo lover, life outside of our little underground cave is overrated; you really should have lived in "your parent's basement" for longer. I am my best when I am with you. **Dougie:** Aye, Café Tortoni! I am not sorry for being annoying all of the time. It's a taste of your own medicine and you have taught me well. Truncheon Luncheon. **Andrew:** My only regret is that we are have to rush out of each others lives so quickly. We have a lot together and I know that we always will. Remember picking blueberries on the airline route. Today in Washington. Rainy beach trips and yogurt. You are my best friend and impossible to match. Think of EJ Mints and car rides. We hate each other and love each other but somehow it works perfectly. We are better people because of one another and we thrived in the most awkward years of teenage life! Thank you for everything you have given me and for always being the first one in New Hampshire. **Wick:** Ticks! I hope you find a 10 year-old husband of whom I can approve. I love having you as a friend and a fellow commando spandex wearer.

K-Tom: There is nobody better trip over, or find dead mice with. You are the perfect hugging height: I wish we could be dating. **Harms:** Keep eating your peanut butter crackers and your powerbars. I will miss you buckets. **Emello:** If you discover any new bagel flavors, please send them my way. **Dana and Caroline:** What can beat sleeping on piles of clothes after a good Jane Austen film? I have always felt so at ease with both of you.

Thank you for your friendship. I love you both. **Kathy:** Watching the clock in class. Crazy in drama. General insanity, you know the drill. Here's to our favorite pants! **Mack:** You always make me laugh and I hope in college you will continue to be insane. **My rocking XCers:** Eat all of your Hodgies like good girls. Don't wash the mud off your legs. Keep the traditions rolling, babies. **Cam:** My fellow hair-picker! No matter what anyone says, love the clothes you're in. Thank you for being such a good friend. **Token men:** Too bad you are in the minority when it comes to gender in the upstairs library. I will miss all of you studs next year. **Emme:** You are the classiest of people. I have never known anyone more caring and selfless. You will be amazing wherever you are. **Jane:** Your hugs are unbeatable and I will miss them desperately. **Morg:** Thank you for lying about how much you love school and making me come. You have grown up with me the most - it's going to be hard to leave you. **Charlie:** Send me a postcard in England next year, and be who you want to be. **Abu:** Thank you for making me smile every time your feet twitch while doing crunches. Maybe in college I will learn to take showers more often, but, I kind of doubt it.

Here's to all of the bare feet, ice cream, flatbread, bagels and hill workouts. You are matchless. Thank you also to Mrs. deGrasse, Mrs. White, Mr. Quigley, Dr. Bradley and Mr. Brace and Mr. Kelly.

Caroline Turnbull

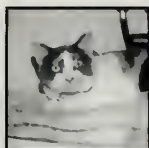

Ania Krzywicki

*Thank you to everyone who made
GDA such a great experience.*

Thanks for all the memories.

Mom and Dad thank you so much for everything you do. You are the best parents I could have ever hoped for and I love you both with all my heart. **Chris** I'm so glad we get to share another three years together before life takes us our separate ways. You're such a great brother and I love you. **Extended Family** thank you for always supporting me and believing in me. I love you all. **Caroline deLac** you've been such a good friend to me these past four

years, despite the fact that you've gotten me addicted to way too many TV shows. You're my unfailing source for good movie recommendations and you always know how to make me laugh. You and I can relate so well and I don't know what I'll do without you next year. **Caroline T** you're one of the most sincere people I've ever met and I really value your friendship. I can't believe you're moving away, but if I'm lucky you'll join me up at Colby next year so I can still see you. You're such a fun person and you're truly one of my best friends. **Wick** I love my twin! Let's go this because the party's that way. I can't believe your going all the way across the country next year! I'm going to miss you and your crazy hyper moments. **Teri** my little Ter bear! I hate that we hardly ever see each other anymore. Thanks for always being such a constant friend through everything. **Tyler** you've been like a second brother to me and I'm happy California is treating you so well. **Lucy** my track buddy. You'll make a great captain next year and I know you'll do well wherever life takes you, just don't forget to talk loudly. **Andrew** I'm glad I got to take you to your first Patriots game and even though they lost it was still a good time. If you're ever lucky enough to come by some tickets I know I'll be the first one on your invite list. **KC** I know you want to be as good as me in math but you'll just have to learn to accept the truth with time. In all seriousness though, I've had a lot of fun with you this year. **Mr. Ogden** you've been a great advisor and I only wish I had been in your group for more than these two years. **deLac Family** thank you for letting me be a part of your BVI vacation and making me feel like a part of the family. Thanks to **Mack, Kathy, Cam, Jane, Emmie, Cory, Matt, and Charlie** for always being so much fun. I hope you're all happy where you end up. **Track People** thanks for a great four years good luck in the seasons to come. **Devyn and Caroline** thanks for being great co-captains. **Lighting and Sound Class** definitely the best three days of the week....Mack knows why. Thanks to all my teachers for their hard work and patience with me through these four years. **Class of 2006** thanks for a great four years and good luck in everything you do.

Dana Vancisin

Mummy and Papa: Thank you for always understanding, I love you guys **Claire:** You're my best friend. Thanks for listening and always knowing what to say.

Paul: Don't worry about Brewster, just be yourself and be patient **Nicholas:**

Have fun being an only child! **Cameron:** Even though we couldn't always

see each other, we never ran out of things to say. Thanks for being there. **Dana:** You're the steadiest friend I've ever had. **Emme:** Your fun, easygoing and have no clue how to be mean. Don't change. **Kathy:** Good times at Oxford. I'm going to miss having no one to sing or be sketchy with next year.

Jane: Seven years of school together, it's the end of an era! Gotta love the Brookwood memories and the crazy hypothetical situations. We're complete psychos together. **Morgan:** I can always count on you to bring me up

to speed on the latest TV shows. I'll never forget your obsession with fashion, Hollywood and fine foods. You're going to dominate New York next year! **Mackenzie:** Good times in Russian history...less good times in African.

You best come visit next year! **Caroline:** I'm glad I got to know you this year; you're honest and easy to get along with. **Cam:** We've had some crazy conversations sitting forever at the dining hall. I seem to remember

one about priests and referees. Keep in touch. **Emily:** Remember those crazy late nights in Nannie B? Watching House and Lost won't be the same without you next year. **Thanks:** Karina, Molly, Cory (Nazi), Ania, Andre,

Andrew, KC, Ms. Hammovit, Mme Abu and Ms. Kimball.

I'm going to miss you all!

"I don't look back much as a rule, but your memory is here and I'd like it to stay" - the shins

Caroline deLacvivier

It is impossible to put four years of memories into 550 words. All of us have become more like family rather than just friends. What a four years it has been; we have seen each other at our best and at our very worst. "How lucky I am to have something that makes saying good-bye so hard," I'll never find another place like this

GDA is: Always Dummer to me---Breakfast at 7:00am...tomorrow same time? ---Free blocks in the upstairs library---Waiting for dinner (5:00pm on the dot!)--- JV Hockey; cash, money, GOV's! Mr. Karin: see you at the alumni games! ---Hours spent in the dining hall---"What are you doing this weekend?" I don't know what are you doing this weekend?"---Mansion House; Doggett's: you create a home away from home for all of us, thank you for your generosity---Fashion shows in the dorm---Library tonight?---Spending all your free time in Kaiser, Mr. Brace: you never say anything negative about a piece of work; thanks for keeping my self confidence up---Spontaneous sing-along's---Visiting Chris in the Bookstore, Chris you are amazing. I never could have gotten through these four years without you--- Fall drama... Karina: classic times out on the swings, "I call right, you call left. BAM!" Mr. Wann: you are so talented and inspiring: thank you for opening my eyes to the world of theater--- JV tennis...Oh Doc---Good vocab word---Orchestra, Stowe: I am going to think of you every time I see a peach blossom. Kelly Pope; you're in charge now...good luck! Sean Cho: you put up with a lot from me, thanks for being so patient---Farmhouse girls 2002-2003! Emilie: you were a great roommate; I still think of you whenever I hear "Be a Man" from Mulan---Nannie B 2003-2004: Lauren: what a year roomie. I'll never ever forget it. The McLain's and Mrs. Hamovit: you always had your doors open, thank you for being such amazing dorm parents--- Peirce 2004-2005: Peirce definitely wins the award for best snacks: Miss Boulais' nachos and Mrs. Ogden's bedtime for brownies...YUMMY! ---Moody 2005-2006: Girlies, enjoy the next three years, they go by incredibly fast. Emily: I had so much fun with you this year in Moody, I'm gonna miss our TV time together---Out to dinner with the gals: The Friendly Toast, Flatbreads, Not Your Average Joe's and Birthday's! Unforgettable times ladies---Classic conversation starters... "There are so many damn dogs on this campus!"---

To my family: through your sacrifices you have made it possible for me to discover the best people imaginable and to have the most amazing experiences one could ever want to have. I love you and thanks for everything. To my teachers: You have taught me how to learn and how to discover my own opinion. You have challenged me in every possible way and are the most respectable people that I know. Thanks for all that you have taught me; in and out of the classroom. Especially to Mr. Bynum for being the best teacher that I've ever had. To my friends: All of you, you have no idea what you mean to me; I could try to say it here, but there are no words that could ever justify the wonderful memories we've shared. It has been an awesome four years. You have made this place home for me. I love you guys! How many times I have called this place home, I don't even know, alas, "Our battered suitcases were piled on the sidewalk again; we had longer ways to go."

Margaret Hughes

Hello everybody!

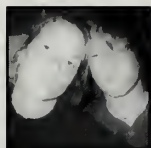

This is my first year at GDA, actually in United State too. Of course, there was many changes happened to me. When I first came here, I had hard time using English and understanding people. The first day here was exciting but I felt a little lost as everything was new. Until I went to Brentwood, that I began to feel more secure. Thanks you for being friendly to me and for trying to understand my language.

This year seems short to me, I don't have much chance to know everybody. Time goes fast, and every senior has to leave. Nevertheless, I will never forget GDA and all the time that I was here. This place gave me a lot of new experience that I never had in Thailand

To all faculties, I am really appreciated all your help and understanding through this year. Thanks you for teaching me to become a better person.

Mom & Dad- you guys have given me so much over the years, I'll never be able to thank you enough. I love you both with all my heart. **Derek**- well, you've got three years left, I'm sorry about that. Don't let this place get to you; it's not worth it. Stay true. **Brit**- Brit, well what should I say; you're like a sister to me. I know I could never forget you, even if I wanted to, and not just because you'll probably be living with me for a while, but because you have given me so much. Even when things weren't great I would have done anything to help you, and it doesn't matter if you wouldn't do the same for me, although I know you would. Mom and Dad: Thanks for putting up with me for these past 4 years. Whatever I do, you know that I will always love you. **Andrew:** You will always be the best older brother I've ever had and oh I have had many. I really look up to you. Thanks. **Todd:** There was once this obese cow..., so many good times I can't even think of any beside me beating your ass in bowling. You've been a great friend since 6th grade. If it was up to me, you would be here at UNH with me right now. Were going be chillin and going on runs for the rest of our lives so keep it real. **Dewey:** If you asked me fresh, soph, or junior year if I thought you were going to make it I would have said "Hells No!" but you did and I'm so glad that you did. I think I still owe you a few thousand dollars on cribbage, holy board, golf, poker, better grades... I could go on and on casue I suck at gambling. I never win. I learned a lot from you over these 4 years mostly bad things, but all for the good of mankind. Stay out of trouble too. **Matty:** Remember those parties at your house that we had, oh wait you weren't there, that was just me. Chi-Town some insane times. You're a mess, you really are and it took me 4 whole *days* to find out that you were. Straighten up a little bit and you could really be somebody. Think about it, you could be somebody. **Becky:** You were the first girl who I actually had true feelings for....weird... I don't think we had one thing in common, but that's what I loved about you. Being with you made me a better person. I'm going to miss seeing you more than anyone. **Molly:** Hearing you laugh and seeing you smile just made my day. Nothing could beat those picnic table conversations while we pigged out on the most random food. Don't do anything you're going to regret at Rollins and look after Alex for me. **ASill:** 4 years together, we made it, its been real. ONE. **Hannah:** Freshman semi when you ditched me, I haven't forgiven you yet. I better be seeing you up in Durham all the time. **Kristen:** You're the funniest person I've ever met. I could always count on you for the most random conversations. **Cottage Kings:** 2nd floor-the real men, stay together to the end. You too Nils. **Wotty:** thanks for paying for me every time we went out to eat. I owe you one. **Robbie:** The greatest sledding run of all time. **Caro and Big D:** You both will pursue your athletics in the future I know it...well at least you will Caro. **Bone, Tins, Benny:** What the hell happen to you guys? **Tippy:** Your one tip better than the rest. **Erika:** Don't listen to what other people say. **Zach:** Face it, you're not good at golf. **Keith and Cotreau:** I looked forward to beating you guys in poker every Monday, work on those golf games. **Bean:** I'll be seeing you around if you know what I mean. **Schwartz:** Drunk Driving kills. **Buddddddd.** You had the biggest... "Time is not measured by the passing of years but by what one does, what one feels, and what one achieves." -Jawaharlal Nehru

Class of 2006, this has been incredible. To the few of us who have braved the entire four years here, there will never be a group of people more connected by the events we have shared together.

From the first day of freshman year, all the way until graduation, we have seen each other at our best and our worst. To those who joined our class later, there is no way of measuring what you have all meant to, and how much you have become a part of, this graduating class. Good friends will come and go throughout our lives, but no one will ever know us better than the people that we grew up so much with here. All of my dorm parents have become more like parents than just dorm residents, all of my teachers more like friends than educators. It is almost incomprehensible to think of all the times you have been there for me. These four years will be counted among the best and yet most trying of my life so far, and to have survived them without you would have been impossible. Julia: I can't wait to see all of the amazing things you are going to do with your life. You are incredible, and your possibilities are endless. Thank you for being a true friend to me always. Molly: Never stop being the awesome girl you are. Spill coffee on your shirts. and fall and laugh when no one is watching. I love you. Lizzy: Always chase those squirrels. I will never forget the friend you have been to me. Liza: Continue to do things for yourself, you are most deserving of your own time and attention, but thank you for all of it that you have given me. Peter: Let's never lose touch. You have given so much to me, and I hope we stay friends for many years to come. Ali C: Always laugh loudly, you have made so many of my days. Thank you. Sarah: We haven't always spent as much time together as I would have liked, but you were always there, and you are a true friend. Block: Thank you for everything, you have continued to remain a good friend to me. Molly B: Just keep laughing. The soon-to-be seniors of Peirce: Make it your best year ever, you all made it mine. Rossli: You are one of the most real people I have ever met. Thank you for always being there. Emme: Always stay true to yourself, you are an amazing girl. Jacky: try to live your whole life like you are at camp. Mark: bocce teammates for life. Boulais: We will be best friends forever. There are not enough words in this whole yearbook for me to thank you enough. Farmhouse '06: never forget that year. McLain Family: You have never stopped being there for me. I have always liked to call it the McLain-Frey family. Let's keep it that way. My actual family: None of this would have been possible without you. The sacrifices you have made for me to be here and to support me these past four years have made me the person that I am today. I love you all. I'm sure I missed people, because everyone here has touched my life. So thank you, GDA.

Mom and dad: You have always been there for me, and the love and support you've shown me has made me into who I am today. Thank you so much for being so understanding, patient, and flexible. I couldn't have asked for better parents. I love you both so much. **Hannah:** There is nothing I could ever say here that would do you justice - you're perfect and I love you. You're the best thing that happened to me in high school, and the memories I have of you will stay with me forever. **Andrew and Sean:** I've known you since kindergarten and 1st grade and when I look at back almost everything I've been through, you both have been there. In these last 4 years I think we've all gone through some of the best and worst times in our lives and once again I look back and we all stood together. We've so many memories from LAS and now so many from GDA: the car pool, Reno, P-tanks, upstairs lib, poker, and just stupid little things like throwing the ball at the couch medicine in Frost the last day of freshman year **Rut:** EEEEE (awkward), that kind of describes trying to put 4 years into 1 or 2 sentences but it's

been fun in the upstairs lib, getting to know you and adding you to the NH trio, P-Tanks, Reno, waking me up when I was sleeping and.... "Awww my leg." **Cam:** We always like to act like we're mad at each other but I know you're one of the people I will miss most next year. **Mack:** Math class, upstairs lib, our GDA get-togethers - it's been good. **Morgan:** You were always there to joke around with and no matter how annoying, cocky, or sarcastic I was, you put up with me and made me laugh. **Dana:** I remember meeting you freshman year when you did X-C for like a day. It's been good getting to know you the last 4 years and beating you in math class. **Everyone else** from home and from school: I'm sorry if I don't give you a shout out by name but so many of you have made high school a great experience. I'll miss you all and I'll never forget. **The cross-country team:** As much as I liked to say I hated the sport, I have enjoyed the experience the last 4 years, despite having to run, because of the people on the team. It's you that kept me coming back every season and I have so many memories of all of you. **The wrestling team:** It's been a tough but rewarding 4 years. You all have so much potential and talent - good luck and keep working hard. **Mr. Odgen:** You were the perfect advisor- laid back and funny but I knew you were always there if I needed you. **Abu:** Running wasn't always my favorite sport but through your support and enthusiasm I have learned a lot about myself - thank you. **Dr. Brayshaw and Mr. Gettings:** When I look back at my time at GDA, you both stand out as amazing teachers and I feel lucky to have been in your classes. **All of my teachers and coaches:** I don't have enough room to say what you all deserve but I want you all to know I have taken so much from each and every one of you and I want to thank you for the dedication I've seen you show the school, its students, and me.

Matthew Rutter

First and Foremost, Mom and Dad, thanks for always being there for me. I have had an amazing time the past four years, and none of it would have happened without your love and support **Sarah:** I didn't know how this year was gonna work, but all in all, I'm glad

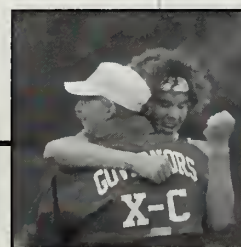

I would like to thank my parents who have always inspired me to achieve and have shaped me into the person that I am today. Their support and confidence in me has never ceased in strength throughout my entire academic career. I consider myself fortunate to have such parents who have sought to give me as many opportunities as

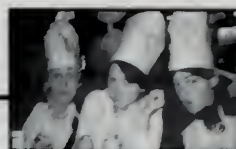

possible in my life. Besides my parents, there are two others that have been around me most of my life. I have known K.C. Smith since preschool when he moved into the house next door and Andrew Huebner since the first day of first grade. Growing up, attending the same elementary and middle schools we have formed a bond that I hope will continue years into the future, throughout college and the years afterwards. Kenneth- All of the times fishing down on the Taylor River as children up until present day, hanging out with Richy, hunting for chippies, and attending Benton's and your bonfires I will always look back on. Huebner- Building igloos and shoveling as kids, going to the Happy Hampton Arcade for seemingly all of several summers, endless video gaming sprees, and building forts in the woods will rest in my memory for many years to come. Rutter- JV and Varsity soccer, lifting hardcore on Monday afternoons, p-tanks in the upstairs library, and much more. Kaitlan- Meeting you last summer has meant so much to me all through my senior year. I will never forget our experiences in Hawaii and everywhere else that we have been to. I hope that we will never lose track of one another. Zachary Cotreau - The ongoing 1942 tournament freshman year and the short existence of the history club sophomore and junior years. Mr. Mandel- Being your advisee for the past four years has been an honor and a privilege. I thank you for all of the support and advice that you have given me and I wish you all the best in the future. I would also like to give a warm shout out to David Shack, Greg Sheals, Morgan, Cam, Kathy, Caroline, Mackenzie, Dana, Lauren, and Jeff Sills. I would like to thank all of my teachers and coaches over the years for having always shown an ongoing commitment to their work. Most notably, I would like to thank Ms. Okula for her inspiration that she has given me in pursuing ceramics. Your constructive criticism and enthusiasm have motivated me to achieve during a great two years of classes. Other memorable experiences have been the many rock concerts at the Hampton Beach Casino, JV soccer freshman and sophomore years with Gettings, springtime yoga and community service, and skiing on the weekends with Josh and company up north. I would also like to give a warm shout out to David Shack, Greg Sheals, Morgan, Cam, Kathy, Caroline, Mackenzie, Dana, Lauren, Jack, Amber, Jeff Sills, and everyone else who have had an effect on me over the years.

Mom—Your strength will always be the example and standard by which I live my own life. I'm incredibly blessed to have a mother like you, and your children will always be there for you. **Dad**—I still laugh and live my life the way you did: with love, humor, and a passion for life and all its beauties. You made me who I am today and I'm forever grateful for my wonderful memories that I will never forget. I am so proud to be your son. I love you, Mom and Dad. **Meghan**—you're an awesome sister, and I could talk with you about Mitzi for hours. I love hitting up all the rides with you at the amusement parks, talking about Mitzi, throwing random stuff in your room, late night conversations about Mitzi, and introducing you to running. **Eric**—best friend and soulmate; ping pong, the fort, nonstop video games, the brothers 3'd, tennis, and outings to Gamestop... all I have to say is: how 'bout some #1's??? I feel so lucky to have such close siblings. **Caroline**—We've grown up, together; and you never truly say goodbye to someone who's changed your life. Going to Nova Scotia and Weekapaug, all the grocery store and Thomas Jason Maxwell runs, beach outings, teaching you to drive my car, running (and wading), painting my room, and the ILHB (ill-hub)... What we will always remember is the genuine, true love we have for one another—and that's what I'll always cherish. You're an amazing person, I feel so lucky to have been your boyfriend, and I love you. **Sean**—Building forts in the snow, going to Happy Hampton Arcade, eating fondue, and playing Teenage Mutant Ninja Turtles almost every day when we were kids, sledding, video games, ping pong, and shoveling. **KC**—Playing baseball with you in little league, not to mention hunting for squirrels, your countless pool parties, flashlight tag and bonfires. **Rutter**—P-Tanks in the upstairs library, poker, skiing at your condo, and your all too infrequent trips up to NH. **Jennings**—How far we've come since the days of playing with beads, blocks, Legos and K'nex! Well, not that far—those toys will never get old, and our friendship will always be as solid as the fortified North America/South America combination. **Abu**—So much more than just my coach, you've become a father figure for me over these past 4 years. I wouldn't be the runner I am today without your guidance and knowledge. I'll never forget all your goofy mannerisms and expressions that I've come to count on. Thank you for four wonderful years. **Weir**—My track experience has been amazing here, and your guidance and friendship has helped me toward my successes around the oval. **Zach**—Fellow co-captain, nobody rocks the American flag bandanna quite like you. **Dan'l**—Running those miles and repeat intervals wouldn't have been the same without you. I'll certainly miss our O.C. discussions.... **XC team**—The best teammates, and such good friends. Run with honor gentlemen! **Hannah**—Having basically every class together sophomore year made us such good buds. Keep practicing those racquet sports; I just got lucky those first few times. **Dana, Emme, Cam, Ania, Morgan, Mackenzie, Caroline D, Jane Kathy**—I know it's lame, and I'm sorry to lump the girls together like this. It's been great to get to know every one of you, and my time at GDA has only been better since we became friends. **Mr. Leavitt**—You've been a great advisor and mentor for me, and from now on I'll always have that firm handshake. Finally, a big thank you to **Mrs. deGrasse, Mr. Quigley, Doc Scheintaub, Mr. Kelly**, and all of my other teachers.

Andrew Huebner

Mom- thank you so much for always listening, even when I didn't want to talk, knowing exactly how to cheer me up, even when I stubbornly refused to smile and putting up with *everything* I threw at you from freshmen year drama to senior year nostalgia. You will never know how much you mean to me. **Dad-** thank you for always trying to understand what goes on in the mind of a teenage girl, and dealing with

my harshness. I know...we're a tough crowd. But don't forget: I love you. **Toby-** We have become true friends and have been through everything together. Thanks for all the bickering. **To my friends-** I don't even know where to begin...so here goes: **Cam-** basically we are the same person, and ever since freshmen year, we've been stuck together. From JV hockey and your incredible story telling skills, the whole face (aka your trademark) to wild crumble searches, you have always been there for me. **Kathy-** being around you guarantees that I will laugh. I love how crazy you are and how different we are. Don't worry, you can always visit me next year for your daily dose of preppiness and don't forget, we will always have our grammar. **Mackenzie-** I can't even begin to imitate your high pitched "eee" noise, but I will definitely miss it. Good luck next year being all athletic and all ☺ **Caroline D-** I could discuss Gilmore Girls with you all day long (Logan is better!) Sorry for always giving you a hard time...I just wanted to teach you how to stand up for yourself (a lesson you have *definitely* learned!) **Emme-** you are always there to lend a listening ear and your selflessness is awe-inspiring. Just remember to stand up for yourself every once in a while. Have an *amazing* time in England next year! **Jane-** why is Zurich in Germany anyway?? And what noise does a donkey make? Laughing with you never gets old... **Caroline T-** we have certainly been together for a while...thank you so much for coming sophomore year! **Ania-** your absolute crazy energy highs never fail to make me laugh...good luck next year climbing mountains! **KC-** don't worry. I know that you aren't a sexist pig and you just say things to make me angry...it always works!! **Rutter-** eee! You're one of the goofiest, most caring people I have ever met and the awkward things you say will always make me laugh...don't ever change! **Sean-** be careful with all your women **Andrew-** your playstation metaphor will never be forgotten! **Sander-** let me know when you meet your lilly pulitzer clad wife and join a secret society and most importantly: don't forget to relax (and eat cupcakes) **Charlie-** thanks for always coming up with something thought-provoking to talk about **Charlie N-** I'm snot gonna miss you next year! Just kidding! Keep on laughing Charlie, you can always put a smile on my face **Taylor-** have fun in french next year! **JV Hockey Girls-** we are the world's greatest! Keep on singing and dancing! **Hunter-** keep the Hunter fan club alive...we really do love you! **Mr. Karin-** you have no idea how much a leap hockey was for me. Thank you soo much for making it my favorite sport **Dr. Brayshaw-** sorry your class was too hard for me. thanks for trying to make me like math. **Ms. Klein-** your first four years at gda are over...try to keep the advisor group spirit going **Mr. Oxtan-** thanks for always trying to make my job as easiest as possible. I couldn't have gotten through making this yearbook without your help **Mrs. White-** your class was by far the *best* I have ever taken **Katherine, Kelsey, Amanda-** thanks for always welcoming me back. I couldn't have made it through the past four years without your friendship. Thank you to everybody else who helped make gDa my home away from home! Sebastien, Meghan, Maxime st. pierre, Eric, Max Isaffre, my flip group, Bailiegh, Jesus, Michaela, Brent, Mr. Brace, Mr. Wann, Karina, Emily, Dana. Any one else who I may have forgotten...Thank you!

Andres Cruz

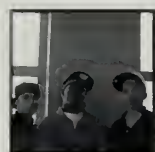

Giovany Morales

Andres Cruz – Hey, I do not know what to say really. You've been my best friend for four years. These past four years would not have been the same without you. We had a lot of fun, and I would not have wished it to be any different. You're like a brother to me, a brother that would actually hang out with me. Although we're not going to the same college, we're just a phone call away. And just because we're not going to the same college, that does not mean that you could start misbehaving. Stay out of trouble. Karina Montilla – Hey, what can I say? You, like Andres, have been an important factor of my GDA life. Just like Andres, you're just a phone call away. Even better, we'll be in the same state, so just call me to chill. James Lawrence – Now I really do not know what to say. You'll probably never forgive me for what I did freshman year, but besides that, we had fun...sometimes. Keep it real. Phil Nelson – Although you were annoying for the most part, you turned out to be a cool kid. Ever since freshman year, I have always wanted to tell you something that you have probably wanted to know for a very long time. It was Jess that brought up your name, not me. Jyovani Joubert – Although you bullied me my entire freshman year. I forgive you. I'm glad you changed. Keep in touch. Vanessa Norkus – You have made my senior year so much better. Without you, I do not know what I would have done. I hope that we will stay together, no matter what. I love you, and always will. Shout out: A shout out to the Silla the killa, yo it was fun rooming with you freshman year. Keep in touch. And I'm going to miss your mom's cookies. A shout out to Lizzy Guyton. I know things changed after freshman year, but it was for the best, and everything did turn out better. You're the girl. A shout out to all of Perkins. You were all good to me. Ted, I'm glad you finally realized that the third floor was my floor, not yours. A shout out to Mrs. deGrasse. You were kind to me and like a sister to me. I enjoyed hanging out with you, and I'll come back every once in a while to see you, Mr. and Andres. A shout out to Drelich. Hey man, it was fun. Thanks a lot for helping me out with the songs. Chorus won't be the same without you. LDP: This is to the peoples of LDP. Y' all know who you are. I'll miss you all. Take care. And see you around.

Well guys, it's been one hell of a ride, but we made it! I can't believe how fast our time at GDA has passed, but I'll never forget all the great times I've shared with all of you. **To Mom and Dad:** You two have kept me in line throughout my whole life. You made sure I didn't screw up to badly and helped me keep my grades up in any

way possible. I probably never would have been on time to school ever if you guys weren't there to wake me up in the morning! Thank you for all of your support and love, and for letting attend GDA. I had a great time here, and I have you guys to thank for it. I love you both very much and appreciate everything you have done for me! **To Andy:** You've been a great brother to me, even though I get annoying as hell sometimes. You were a wonderful support through my high school career, and I'm sure you will be for the rest of my life. You helped me get in shape for football during the summer and practice my wrestling against your Brazilian Jujitsu. I even made some friends with the people you knew while you were at GDA! I can't thank you enough for everything you have done for me! **To Murphy, Rutter, Huebner, KC, Zach, Keith, and Shack:** You guys have been great friends to me since I came here in sophomore year. We ran the upstairs of the library! Yahoo pool, then poker and P tanks were probably the only reason I made it to most of my afternoon class! The movies during lunch were great, too. I hope we keep in touch for a long time, guys. **To all my teachers/coaches:** It's because of you that I did as well as I had at GDA. You all taught me new and challenging information on a daily basis and made sure I understood it. I know I wasn't very good at getting work in on time or doing my homework, but none of you gave up on me. I enjoyed all of my courses immensely (even if I wasn't good at some of them) and every one of you did a great job! Thank you so much! **To Sillari:** You were very kind to me since my first day at GDA, the morning meeting after unity days sophomore year. It was you, Sills, and I in our row (so basically just us), and you were the first person to approach me and introduce yourself. You were a great class president and public speaker, and you livened up the usually boring morning meetings. Thanks for being good friend. **To Donato, Lundy, Caro, Scippa, Sam, Zack, and Brent:** We had a great time at breakfast almost every day, and you guys were great to hang out with in the mornings before classes began. It was fun to listen to your stories of what happened the night before in the dorms and joke with you guys. And thank you to my loving **grandparents, aunts, uncles, cousins, and friends** for your support throughout the years. You guys are the reason I pushed myself to get good marks and experience my life to the fullest. Thank you everyone, I love you all.

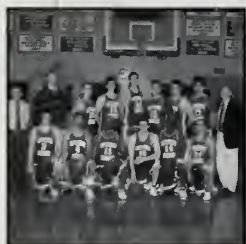

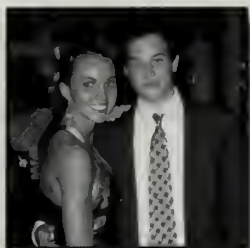

Gregory Shealy

First of all, thank you to my parents. Every day I appreciate the help you've given me to get to this point, and to be successful in school and in life. I'll be busy at school for the next few years, so I'll try to keep in touch. Rach, you're my sister and one of my best friends and you're going on to do big things. Jake, pretty soon you'll be able to pick on me, instead of the other way around. Don't waste any time at Andover because it will fly by. Now to the GDA crew: **Cotreau-** Some good times over the last few years. BOOOY! NCAA 06. the physics folder, Dipthet birdman, HMC, the original Friday afternoon poker games, Golden Tee, Subway, Sanman's car. T.LoooBearz. the Physics class franchises, the war room, Scout.com recruiting, and plenty more. It's been a good four years, and you've got a lot of guts to do what you're doing this summer and for the next few years at West Point. **Corbett-** Any time you want to send Pujols my way, just shoot me an offer. The end of quarter math homework scramble. Friday afternoon poker co-founders, HMC, down with the Dipthet. one dollar bets, our rewarding basketball season this year. Hal's email, and the dump that we know as the upstairs library. We three were the biggest diehard Republicans I know of, and that better not ever change. You and your boys are going to run UNH, probably into the ground, so I'll have to come up and visit sometime. Man I don't say nuffin *TO* him. **Caro-** Run de offense! Representing Andover, we've been pretty good friends since you came sophomore year, from fantasy drafting, to whispering in English class, to Metz chemistry (I know you didn't forget that). You're going to dominate the NESCAC next year, and I'm sure I'll see you around town, considering I'll be renting my movies from you at Blockbuster. **Sammy-** My Jewish brotha. Give me a call if you and Anna hit the rocks, cause I've got a little thing for blondes. You're the man, and if I don't see you throwing cheese in the majors after Union, I'll probably see you working in the Admissions office at GDA. Just playing. **Heebnah, Sean, Rutter, Kenneth** and of course **Shealy-** Can't find a better bunch of guys, even though all of you except for Gregor are from New Hampshire. If pocket-tanks was a professional sport, you'd all be filthy rich. You're all a bunch of fruitcakes, and you're probably going to miss me more than I'll miss you. Good luck boys. Some last shoutouts: Sarah, Sillari, Marshall, Hanna, Hester, Durkin, Joey, Ali, TLo, Dre, Lundy, Richards, Kenny, Mr. Abu. Mr. Moonves. Mrs. White, Mr. Robertson, Rinaldi, Matty, Guyton, Jacky, Mcart, Brent, Chisholm, Sweetman, Slapsy, and the rest of the last graduating class of Governor **Dummer** Academy.

A man can be as great as he wants to be. If you believe in yourself and have the courage, the determination, the dedication, the competitive drive and if you are willing to sacrifice the little things in life and pay the price for the things that are worthwhile, it can be done.

-Vince Lombardi

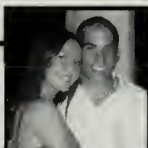

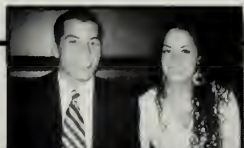

Mom and Dad, thanks for everything. You both have always been there for me and I appreciate everything you have done for me. I love you both. **Sean**, you did a good job paving the way for me with mom and dad. You're the person I always speak highest of and that will probably never change. **Jake, Jim, Lou Al,**

DB, Conor, the best friends I could ask for, we have had more fun in these four years than I thought possible and they will definitely continue in college. **Abigail**, you have kept me in line for the past two years and I owe you more than you will ever know. You have been my best friend and a great girlfriend. **Cotreau**, we have been good friends for four years and had some hilarious times together. I am glad Harvard didn't get in your way and you stayed here all the way through. You are too badass for that place anyway, all the best at West Point. **Shack**, between basketball, golf, HMC and countless hours in that upstairs place they call the library we have had a lot of laughs. If you ever need any fantasy advice you know who to call. **Sam**, someone I could always count on to keep me updated with everything going on in this place. I think we complained about everything here to each other more than anyone else for four years. You've always been a good friend, stay in touch, and good luck at Union. **Hannah**, you are one of the few genuine people that I have been lucky to know for all four years. You will always be someone I consider a good friend even if you are a hippie at heart. **Huebner**, you are a hell of a runner too bad I didn't get to see your last year. Cut that hair though you aren't Prefontaine yet. **Monday Poker Crew, Shealy**, Huebner, Cotreau, Lundy, Rutter, Murphy, Linskey, Kenneth, the only reason I ever looked forward to Mondays. We have had some good times and don't worry you're money is being well spent. **Lundy and Emilie**, it has been fun getting to know you guys better this year and it has truly been an honor to slack my way through senior year with you guys. I am sure I will see a lot of both of you next year at UNH, it definitely won't be GDA. **Caro**, ever need a parole officer you know who to call, don't kill anyone at Williams. **Sillari**, could always count on you for a one liner in any situation. **Ogden**, you are one funny bastard, don't let that fade with age like most old timers do. **Nelly**, we had numerous arguments on politics in my early years at GDA, and even though you are a hippie you will always be one of my favorite teachers. **Rokous**, I wish you were ten years younger for my junior year, I could have used those straight A's. **Lizzy**, thanks for driving me when I was lazy even though you almost killed us both on more than one occasion. **G-Unit**, kept the drama alive for four years, you were an interesting group of girls. **HMC Crew**, Bielinski, dan'l, Burger, All I can say is Dipset biiith. Thanks to everyone who helped me through my four years.

Keith Corbett

Mom and Dad: I cannot even begin to thank you for the amazing educational opportunities you have given me these past 13 years at Brookwood and Governor Dummer. Your stress on hard work, doing well in school and being a gentleman has undoubtedly made me the individual I am today. Thank you for all your love and support with everything I choose to do. I love you. **Ali**: You have been a great sister and my best friend my whole life. Thank you for always being there for me and constantly offering me love and support. You have grown to become a confident, fine young woman and I know you will have an unbelievable time in Boston the next four years. **Jake**: I couldn't ask for a better younger brother. You have a great sense of humor and I am going to miss all the time I get to spend with you. Have fun at GDA next year, but work hard too, because you will never be disappointed with yourself if you know you gave it your best. **Andy and Jay**: The Brookwood Trio; you guys are like brothers to me. I am going to miss you two more than anything next year. **Tim**: We have become really close over the last few years. I always have a good time with you. **Keith**: You're one of my best friends and I couldn't have gotten through GDA without you. I'll miss all the courtyard/subway runs, messing with your car, taking your \$ in poker, races in frost and schooling you in ALL fantasy sports. **Shack**: BOOOOY! You are the funniest kid I know, one of my best friends and the person I have spent the most time with here. There are just too many memories to name...PSP and food all physics class, the "disappearing" physics folder, HMC dances, "Zach's free body multiplication method", subway/courtyard, golf, , giving Corb and Sandman "the treatment", being Republicans, NCAA 06, 21 *****, Scout, Rivals, and the list goes on. **Sam**: We've been best friends every since the first day of XC freshman year. Thank you for giving me all your support these past four years. I will never forget our week in Costa Rica with the Cali girls. **Heebs**: You're a great friend, I'll never forget all our XC memories. **Dan'l**: My fellow Table 5 King; I don't know how I would have gotten through our races and workouts without you running next to me. Enjoy leading the team next year. **Poker Gang**: Sheals, Heebs, Rutter, Corb, KC, Smurph, I always looked forward to taking your \$\$ on our poker Mondays. **Caroline**: It's been a good 13 years; I know you're going to miss my obnoxious "Bonjours" next year. **Lesaffre**: Tu est une fée! haha **Mr. Abu**: You have had such a huge influence on me during my 4 years here. As a teacher, coach and advisor, you have pushed me to excel in the classroom, in athletics, and in being a genuine person.

You are one of the best people I know and I will truly miss you. **HMC Crew**: Bielinski, Doggett, Henneburger, Lamson: DIPHET BIUTH **Teachers**: Mr. Doggett, Mr. Delay, Mr. Robertson, Mr. Quigley, Dr. Bradley, Mr. Werner, Mr. Gettings; thank you! Thanks to everyone else who has made an impact on my life these last 4 years.

Kristen, you have taken so much of your time to get to know and understand me better than anyone else. These past few years would be virtually nothing if it wasn't for my memories of you. We have grown so much with each other. Thank you for everything.

First of, I want to thank God for guiding me and always being there for me, and finally enabling me to reach this stage in my life. Next, I want to thank you Mom and Dad. If it weren't for your love, your time, those late night phone calls Dad discussing Math problems, and Mom, those long trips to Port Authority to get me back to school on time, I wouldn't be writing this right now. You two are the greatest people in my life and I thank Jesus everyday that I have you two in my life. Sewoo! I'm finally graduating! You, on the other hand, have three more years to go! Good luck. Anyway, you're going to have it much easier than I, that's for sure. Juni-boy: never change. You're cute, you're funny and I thank God you're my brother. Me do wo daa. Nana: Your favorite granddaughter has graduated finally, yeah! Bla. Simon and Senior: You two especially would be very proud of me if you were here. Thanks for always encouraging me in my studies. Chief: Are you an accountant yet?! Finally to folks from GDA: Sand, it was great knowing you on the school bus from the first time we met, (when you were using those crutches and were a sore sight to see) to now, when we've been working on the Gov. together. Have fun at UVA. You are a very happy, cheerful person. Please, avoid those "moods" in college. Cam, it was great working on the Gov. Have fun at Tufts. Karina, Sophomore year roommating was fun. Never change. You're awesome even though you tried to taunt and beat me numerous times. Me gusta caminar. Have fun at college. Try to work a little harder than you did here. Tucker Walsh, the best photographer, the Gov has ever had in its history, I believe. Never, ever change! You're an angel. Jane, I still remember those horrifying late night DBQs. Thanks for being who you are and I'm very glad I got to know you! Have a lot of fun at college and enjoy the hockey. How are the Bruins doing by the way? Ki, my favorite Korean. You're an awesome person. Jen, I enjoyed our times at drama. Enjoy the rest of your time here. Mr. McCollough, thanks for AP Bio this year. Always stay fit and well. Ms. Kimball, I've graduated! Mr. Werner, I loved Comparative Religion this year. I'm so glad I got to have another "civics-like" experience again. You're an awesome teacher. Thanks for everything. Dear Faculty, Staff and Students,

The Board of Trustees voted today by an overwhelming majority to begin doing business (DBA) under the name The Governor's Academy. Governor Dummer Academy will continue to be the name of our school. A vote in December culminated a year of discussion, research, and change will be effective for the next fiscal year.

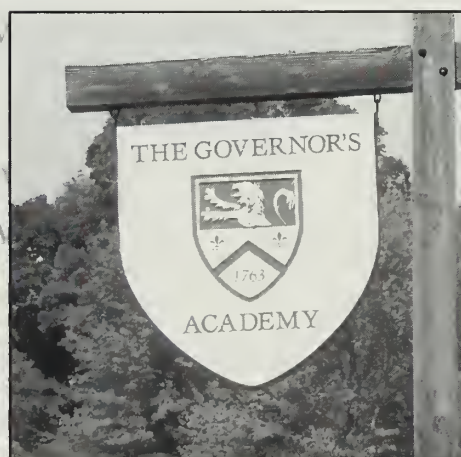

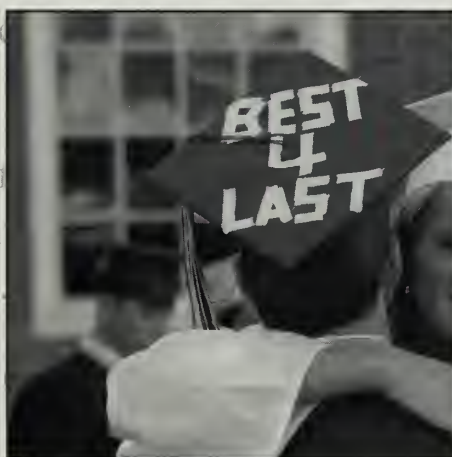

The Board of Trustees, by implementing this change, explained that the school's long-term interest in the school name, GDA receives several requests as it can enroll students from a wide geographic plan, and regional area.

vowed to maintain the school as a seven-day boarding school with strong regional representation and a national and international reach, according to Morgan, thus making it of utmost importance. Those unfamiliar with the school's history and those unacquainted with the school's legacy.

The name change in the coming year will support the school's pursuit of facilities. We are also pursuing facilities on campus. The school will undertake the name change in the coming year. THE NEW STUDENT CENTER OPENS. After a year and a half of construction, the spacious building, complete with an expansive bookstore and grill opened on Friday September 23. With the help of the generous French family, and the

parent's association, the Allies, the building was outfitted with new furniture, a sound system and three plasma screen TVs. The new hangout is much appreciated by both the class of 2006, the entire student body and future generations of students.

URRENT

Events

GDA CARES. Checks totaling \$2,600 were recently sent from GDA to Cantor Fitzgerald Relief Fund and Boston's Hurricane Katrina Relief Fund. The money was raised by the sale of "Katrina Relief - We Care" bumper stickers on campus, at other schools and in the community. None of the funds collected will be used for administrative costs. All of the money will go directly to help victims of the storm.

GDA BEATS BROOKS SOFTBALL. For the first time in the

team's history, the GDA varsity softball team was victorious over arch-rival Brooks, with the help of pitcher Emilie Arthur, Gatorade Massachusetts Softball Player of the Year. This win helped lead to their 2006 ISL Championship title.

HORRIFIC FLOODING SLAMS NEW ENGLAND. Record breaking rainfall starting in May caused flooding in rivers, basements and streets. Students skimboarded on the Lower Fields and swam outside Ingham. Nearby school, St. Paul's, was forced to close its doors nearly a month early for summer session due to dramatic flooding.

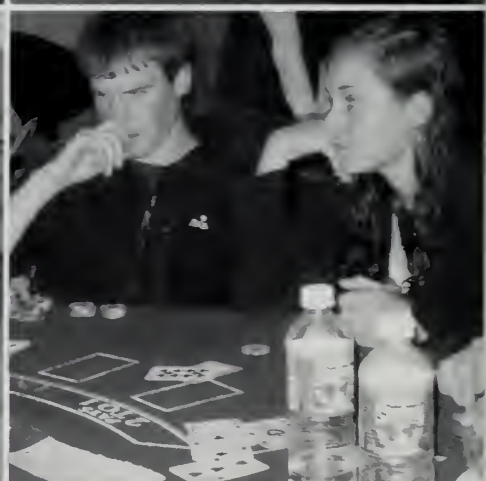

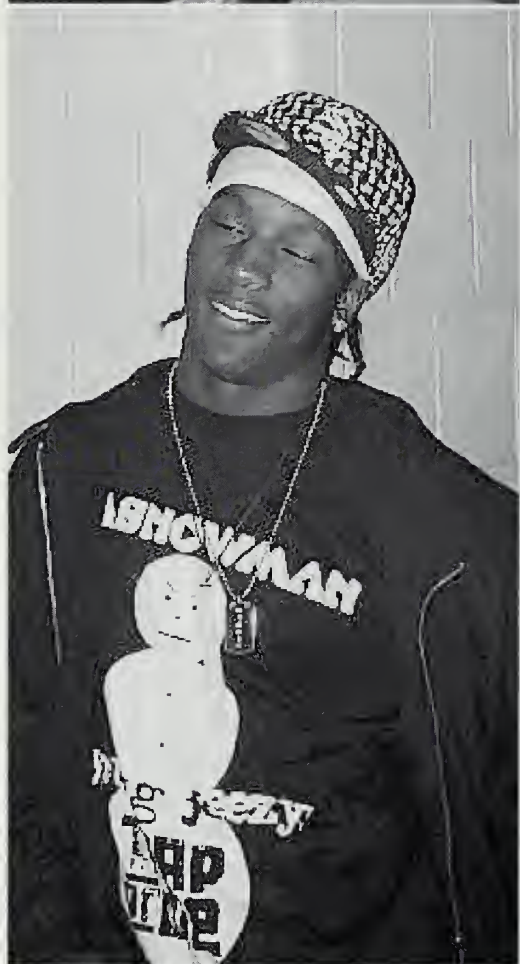

ON THE GDA CAMPUS AND BEYOND

GDA PARTICIPATES IN JAPANESE EXCHANGE PROGRAM. Five Japanese students arrived at Governor Dummer Academy on March 25 as part of an exchange program funded by the Japan Fulbright Memorial Fund, a program created by the Japanese government to honor the 50th anniversary of Fulbright Scholarships. Though JFMF primarily sponsors programs for teachers, this year marks the second annual student exchange program, a co-project with NaGISA, an international organization spearheaded by scientists. Four GDA students visited Japan last summer with their teachers and engaged in collecting samples to discover how diverse various coastlines were in terms of distribution and number of species. In addition to their scientific work, the American students toured and were hosted by their new Japanese friends for a variety of social events.

Senior - Faculty Dinner

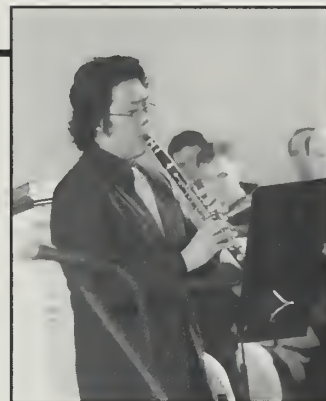

a final farewell

Your fears were probably not realized until closer to the actual start of the school year. What had hopefully been a fun and memorable summer was coming to an end and the realization that you were going in a direction different from those who had been closest to you was starting to set in. Should I just stay home with all my friends? Is GDA really the right place for me? What have I gotten myself in to? Everything about that year was new. You were learning how to survive in your new surroundings; the people, the places and the experiences that make Governor Dummer Academy the amazing school that it is. You and your parents drove on to campus with a thousand thoughts running through your heads: this place is pretty nice, but do I really want to spend the next 4 years of my life here? Is my roommate going to be a freak? Am I going to actually make friends with some of these new faces? Who is that lady with the white hair?

For four years, some of you more and some you less, you have been on a journey through this place called Governor Dummer Academy. But, as we all know that is just a name. You all have defined what GDA truly is in your time here. Unity days started with a cook out on Plum Island and ended with the hike from hell at Brantwood. Your athletic achievements include New England Championships in Field hockey, girl's soccer, football, cross country and boys track and ISL championships in Football, Cross country and most recently Boys lacrosse and Softball. GO GOVS! On the stage, you have put on wonderful musicals like "Little Shop of Horrors", moving theatrical pieces like "It's Raining Gasoline" and fantastic concerts and beautiful dance shows. You have given blood, screened yourselves for the chance to be bone marrow donors, helped little kids learn to swim at the YMCA, run some fantastic Special Olympics tournaments and made Christmas happen for Ozzie's kids. You have been the Governor Dummer experience and so you have taken your place in the history of the oldest boarding school in the country.

the Morse Flag

**awarded to the senior whose record in all respects
meets the highest approval of the faculty**

Since he arrived on campus in the fall of 2002, he has seemingly touched every corner of our school community. His kindness, vitality and sincere commitment to learning has been apparent to all. We have all been touched by his engaging warmth, his wry sense of humor and his earnest approach to his every endeavor. It has been said that nothing great was ever achieved without enthusiasm and our recipient approaches each day, every challenge and every opportunity with unbridled energy and optimism. As a result, he has consistently accomplished great things. His record as a scholar is distinctive. He is one of the Academy's top mathematicians who consistently has pushed the limits of our curriculum by enrolling in all the available Advanced Placement and Advanced Topics offerings. His first introduction to the world of Physics was at the AP level. Despite the sophistication of the material, the rapid pace of the course and the fact that each of his classmates had at least two previous experiences in the discipline, he emerged as one of the leading students in the section. He has impressed all of his English and History teachers with a prodigious work ethic, an intense desire to improve upon his skills and a sincere interest in the ideas introduced in class. In the grand tradition of Governor Dummer Academy, he has made significant contributions to both the artistic and athletic arenas. He is an accomplished musician who has studied bassoon at the New England Conservatory and has strengthened our orchestral program with his unique talent. He has graced our stage as a singer in the chorus and as a performer in the winter musical. He has also mastered back of the house skills by running the light board for many of our dramatic productions. On the soccer field he is a gifted and dedicated competitor whose teammates selected him as one of their captains this past season. What makes this young man all the more remarkable is that he has achieved all of this with English being his second language. He is a role model, a scholar, a leader, a contributor and a true force for good in our community. It is with the admiration and appreciation of the Governor Dummer faculty that the 2006 Morse Flag Award is presented to:

KI YOUNG KIM

Thorndike Hilton Cup

**awarded to the ranking scholar of the
graduating class**

The recipient of this year's Thorndike Hilton award is a dark horse. As a freshman he was more concerned with establishing social standing among his peers than he was with finding his footing in the classroom. The impulsiveness and distractibility of a young freshman boy faded quickly in the distance as his courses increased in rigor and challenge. In junior year not only did he fill his schedule with a cadre of honors courses, but he pursued an independent study in chemistry and positioned a yearlong course of economics alongside his junior United States History course, an academic choice made even more remarkable given that English is not his first language. In the sprint to the finish that is senior year, he led the pack with his stellar performance in Advanced Placement Physics, BC calculus, and Advanced Placement Statistics. Nothing inhibits this young man. Whether he is entertaining us by belting out show tunes on stage or grilling his teachers and peers in the classroom for answers, he is a driven and determined scholar who will achieve the greatness of which he dreams. This is his moment.

The highest ranking scholar of the class of 2006 is

KI DONG "JUSTIN" KIM

Academy Prize

awarded to a senior whose unselfishness and sportsmanship have best exemplified the spirit of the school

People have instinctively gravitated towards this young man since he first arrived on campus. His freshman advisor was prescient when he speculated that he had the potential to be one of the true leaders of his class. It has been observed that a leader is one who knows the way, goes the way and shows the way. This year's recipient of the Academy Prize possesses an inner navigational system that has guided himself, his peers and his school in positive and productive directions. Attitude is contagious and the affirmative and energetic approach he has taken to his studies has infected all of his classmates. He offers fresh ideas and insights, often quite unconventional, but they are the stuff that forces others to look at a text or the subject matter in innovative ways. He is a problem solver who inspires others to roll up their sleeves and join in the process of discovery. He is never complacent, always seeking to improve; he expects much of himself and those around him. He has played three varsity sports; one where he was a star, another where he had high profile moments and the third where he was a reserve. In all three venues he led. Regardless of his status, there was a consistency in his approach to all three situations. He was a tireless worker, a tenacious competitor, a model of sportsmanship and an enthusiastic and vocal cheerleader for his teammates. To know one's surprise yet indicative of the respect he enjoys from both faculty and students, he was selected as a dorm Proctor and elected as the senior Class President. His maturity, unselfishness and good judgment are recognized by all. Respect and laughter tend to naturally swirl around him. His droll one liners, uncanny impersonations and frequent celluloid appearances have enlivened our Friday morning meetings. His sense of humor is always positively directed, often at his own expense. His style, wit and charisma have helped to set a positive tone on campus. Indeed, all that he has done rings of the best spirit of this school. It is with pride and admiration that the faculty presents this year's Academy Prize to:

ANDREW THEODORE SILLARI

Peter W. Bragdon Headmaster's Cup

given to that senior, who in the judgement of the Headmaster, best serves the mission of the school

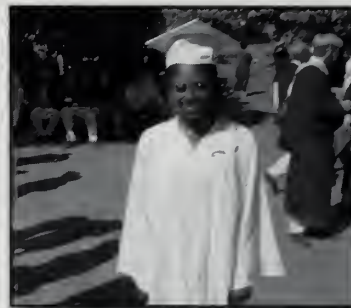

Exercising leadership is an art form. It is practiced not in words and promises but in attitude and actions. To lead is to engage in a classic give and take process; one must unselfishly give of oneself while concomitantly being prepared to take risks. The leadership roles he has assumed in the classroom, in the athletic arena, and in the dormitory have been noteworthy in and of themselves. But it is the efforts he has put forth for the Class of 2006 in particular and for the school community in general that have set him apart. He set the tone on campus. Friday morning meetings were as highly anticipated as the reading of power ball numbers. Films worthy of Sundance, skits that were definitely ready for prime time and even a musical performance that would make the Standells and the Boss envious (I think) were conceived, produced and orchestrated by this modern day impresario. We all would leave the PAC with an added bounce to our steps and a smile on our faces ready to face the challenges of the day.

But he was not just about bread and circuses. When he spoke from the heart in chapel people listened. When he talked about the importance of making good decisions people listened. When he spoke about representing our school with class and pride, people listened. They listened to his words because he truly walked the talk. He has earned a vast reservoir of respect and credibility because of the way he has conducted his life. If there was a job that needed to be done, he delivered. He never delegated a task he wouldn't do himself. He was kind and considerate to all. His honesty and sincerity were totally transparent. And just for the record, he was one of our leading academic scholars and most accomplished athletes. His senior year was an extended tour de force that truly made a difference and he made it fun. For his leadership of the Student Body, his support of the faculty and his advancement of the ideals and mission of the Academy, it is my pleasure to present the 2006 Headmaster's Cup to:

PETER MARSHALL FRENCH TROPHY

No one could question the athletic commitment of the recipient of the 2006 Peter Marshall French Award. In the fall, his dark silhouette was regularly seen in the fading afternoon light, a solitary figure firing out from his stance on the blocking sled or running through the ropes, determined to earn a starting spot on the football field. Wrestling is not exactly the kind of sport that attracts novice seniors. Yet, he joined the program when he heard there was a need for wrestlers at certain weight classes. He worked industriously in every conditioning and technique drill and ultimately became a key contributor to the team's success. His four year dedication to the lacrosse program continued this spring. The elder statesman on a talented JV' squad, he did everything from inspiring younger players by his style of play to stringing their sticks. This young man's determination, spirit, enthusiasm and affable sense of humor make him a most deserving recipient of the Peter Marshall French Award.

JAMES HENRY GURNEY

GOODWIN ATHLETIC PRIZE

Each season the spectacular was the norm for this accomplished athlete. In the fall it was balletic, twisting receptions from end zone to end zone throughout the ISL. He was the complete package in basketball, running the floor, sweeping the boards, defending the hoop and shooting the lights out. In baseball, if he wasn't hitting tape measure home runs, he was throwing base runners out at second from his knees. His performance has been noticed. Elected a three sport captain, winning nine varsity letters and selected for all league honors in three different sports, he has definitely earned the respect of teammates, coaches and opponents all throughout New England. He is an intense competitor between the lines but this drive for success never eclipses his ingrained sense of sportsmanship and abiding respect for the game. Modest and self effacing, he is quick to deflect credit to others. However, all who have had the good fortune of watching him know that he is the real deal. Mr. Nelson, Mr. Gerry and I can confirm that his college selection further underscores his inherent good taste and class. This year's recipient of the Goodwin Athletic Prize is:

NICHOLAS JOHN CARO

ANNE MARIE MURPHY ATHLETIC AWARD

She has been the captain and Most Valuable player of two varsity sports. She definitely has the vision thing. She sees the playing surface and reacts instinctively well to every situation. Her athleticism is real but she has never taken it for granted. Her industry and dedication make practitioners of the Puritan work ethic look like slackers. Her teammates hold her in highest esteem. Talented athletes impact games, exceptional athletes dominate contests. Whenever she toed the rubber in softball, the opposition might just as well have sent their bats out for reconditioning since they were of little use. She was virtually unhittable, compiling an unblemished pitching record a microscopic ERA and leading her squad to an undefeated season and an ISL title. For four years she has been an automatic selection by opposing coaches to the All-League team. Her sportsmanship, passion for the game and skill set her apart from her peers. The recipient of the Anne Marie Murphy Award is:

EMILIE ELIZABETH ARTHUR

THESPIAN AWARD

If I may, I will borrow some phrases from New York Times theatre critic Ben Brantley* to describe this years winner of the Thespian Award. "She treats the stage as if it were her first home." "When she starts to sing... it feels like an invitation to walk straight into her heart. Even the silliest seeming ditties can become affectingly sincere confessions when delivered by" her. "She seems to pull us all into a collective embrace with a mere catch in her voice or a hint of a tear, and there are moments when nothing seems to exist but the star, the song and audience..." Her career at GDA has been a shining one. From her first role as Theo in Pippin to her recent creation of Audrey in Little Shop of Horrors, she has thrilled us with her melodious voice, vitality and stage presence. From Lynnfield, Massachusetts, this year winner of the Thespian Award is the talented

MOLLY ELIZABETH BRIERLEY

EDWARD J. RYBICKI PRIZE

This prize is awarded to the student making the greatest positive contribution to *The Governor* over the past academic year. During each of the past four years, *The Governor* has reached new levels of achievement. The stories are more interesting, writing more professional, layout visually more pleasing, and the staff grows to include more strong and talented voices. This year was no exception. Under the able leadership of Cam Archibald, Mary Boadiu, and Sander Crosett, the newspaper was published eleven times, with an average of twelve pages per issue. Each editor spent one afternoon season devoted to *The Governor*, overseeing every detail, working tirelessly during evenings and weekends. While all of this year's editors improved the paper in unique and important ways, one stood out for her exceptional organizational skills, her sound judgment, critical eye, dedication and her commitment, not just during her season as editor in chief, but during all three seasons. She was generous to the other editors with her time and experience, willing to step in when needed, eager to promote the paper to the school community. This year's Rybicki Prize goes to

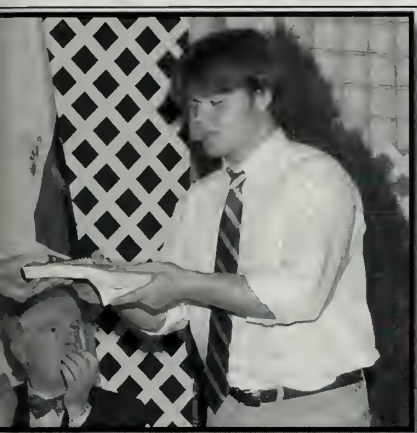

CAMERON WHITNEY ARCHIBALD

BARRISKILL PRIZE

He has been honored for his rich, textured and expressive verse. His short stories have been acknowledged for their creativity and level of sophistication. He has had original historical research published in a national journal. He thinks deep thoughts, ponders ideas and relishes intellectual discourse. His academic record has been stellar. He has achieved notable successes as an athlete. He has won accolades as a thespian. But this evening we recognize another dimension of this talented young man: his impressive contributions to our music program. He taught himself to play the upright bass and became the backbone of both of our instrumental ensembles. He has played at chapel, been an accompanist for his peers and has challenged himself to learn different styles of music. For these last four years he has made sweet music for us to enjoy. The winner of this year's Barriskill Prize in Music is:

CHARLES LAWSON GRANT

MERCER ART PRIZE

Paul Gardner the artist once observed that "a painting is never finished-it simply stops in interesting places". And so it is for the process of creating art. This year's recipient of the Mercer Art Prize has been a prolific painter and designer throughout her GDA career. We pause this evening to mark an interesting place in her development but are quite conscious that her creative journey is only in the beginning stages. Her talent, originality and dedication to her art were immediately apparent to all her teachers. As her career unfolded, she filled her schedule with more and more art offerings, often designing an independent study when she had no available free blocks, or when her path of discovery took a direction that diverged from our course offerings. She organized a dazzling one-woman-show of her works during her junior year, and has continued this tradition recently with a stunning gallery opening dedicated to her original jewelry creations. This artist has received countless tributes for her designs, including recognition from the Boston Globe Art Awards for the past two years, and Academy's Junior Art Prize last year. I suspect that the accolades will only increase as she continues to practice her craft.

It is with great pleasure that I present the 2006 Mercer Art Prize to:

YU JUN LEE

JOHNSON SCIENCE AWARD

His approach is diligent, steadfast and resolute; his observations are consistently insightful. He is not afraid to ask questions or think imaginatively because he strives for deep comprehension of all topics. He welcomes challenges, meets them head-on, and understands quickly. Better yet, he retains the knowledge and experience to effectively apply his learning to new situations. When faced with adversity, he copes and rebounds with grace. Motivation is his stock in trade.

It is a pleasure to award the Johnson Science Award to:

KENNETH CLARK SMITH

CUMMINGS PRIZE

When your favorite novel was written in the Victorian Era when authors wrote excruciatingly long books, extraordinarily long paragraphs, impossibly long sentences, and wicked long words; when that same novel was assigned over summer vacation; when you opt to take three advanced placement class in your senior year because you are interested in the challenge; when you add elective classes because you are intrinsically interested in them; when you continue with an athletic commitment in the Spring of your senior year because you feel you have made a commitment to the team and don't want to let anyone down; when you do all this, you exhibit in genuine ways what schools and schooling ought to be about. To do this with a smile and a laugh, some ironic and dry wit, and a constant supply of Dunkin' Donuts products is icing on the ... donut. I am pleased to award this year's prize to:

DANA ELIZABETH VANCISIN

GAFFNEY PRIZE

The daily rigor of classes, the regular routine of homework and long athletic seasons can be quite challenging and cause even the best of us to occasionally become self absorbed. The Gaffney Prize honors that senior who, in spite of all the rigor and stress that accompanies life, never loses sight of our responsibilities to be human. To her peers, this year's recipient is valued as a solid, loyal and caring friend. Her warm smile and words of encouragement are daily touchstones. The faculty, respect her for an honest work ethic and her simple personal philosophy that equates achievement with industry. She is tolerant, objective and respectful of the beliefs and opinions of others, whether acting in her role as a Peer Advisor, Proctor, or trusted friend. She has touched many with her kindness.

MARGARET ESTHER HUGHES

SARA ELLEN AVALON AWARD

Her small physical stature might cause some to initially underestimate her. But a determined work ethic, the strength of her character, and her service to the entire community, validates that she is, in fact, an individual of size, strength and substance. She has accepted and met the challenge of a rigorous Advanced Placement course load, became intimately involved in our community service program and immersed herself in a wide array of extra-curricular activities. Her quiet demeanor belies a powerful voice that projects from our stage, throughout our classrooms, and across the pages of The Governor. She has become unabashedly seduced by the craft of writing. Her evocative prose has appeared in our newspaper and literary magazines and has become a vehicle for her passion and a window into her heart. This year's recipient strikes the balance between good-natured perseverance and disciplined commitment to the values of the Academy. By working tirelessly to develop her own limitless potential, this principled, conscientious, ever smiling and strong young woman has personified the very best of Governor Dummer Academy. The winner of the 2006 Sarah Ellen Avalon Award is:

MARY AGYEMAN BOADU

WILKIE SERVICE AWARD

She is the voice, the soul, the arms and legs of community outreach. She cares deeply for others and makes good things happen. Even more, she inspires those around her to want to do good things. She is our community service conscience whose personal commitment to causes and people is worthy of the highest praise. She has been head of the Blood Drive and Special Olympics; she has co-organized, collected and wrapped donations for Ozzie's Kids; she coordinated the Tsunami Relief Fund and arranged for help for the victims of Hurricane Katrina; she spent her senior spring working to register GDA folk for possible bone marrow donations. Her contributions are legion, her impact global; we will never know all the people whose lives this young woman has touched, nor will the recipients of her thoughtfulness ever know her identity. This of course is the true essence of giving. She personifies GDA's motto, Non sibi sed aliis. I am pleased to award the Wilkie Service Award to:

MARISA SHARLAND FREY

ALUMNI ASSOCIATION AWARD

The 2006 recipient of this award recognizes a young man of sterling character. Throughout his four years at the Academy his personal attributes have been conspicuously on display. His qualities of discipline and self reliance have been strengthened on the cross country trails. His involvement in student government has been a showcase for his integrity and accountability. His creation of the Support our Troops organization has highlighted his initiative and organizational skills. His empathy and concern for others has been accentuated by his enthusiastic approach to community service. His seriousness of purpose and interest in current events has been reinforced by his involvement with the Governor and Harvard Model Congress. His appreciation for the life of the mind has been underscored by his high scholarship and intellectual curiosity. His level of involvement in the school community has been exemplary. This young man cares. He cares about his family, his friends, his school, and his country. He is loyal to the core. Beginning this June his new loyalty will be to the corps of Cadets at the United States Military Academy at West Point. He leaves Governor Dummer Academy a better place because of his presence. It is my great honor to present the 2006 Alumni Council Award to:

ZACHARY ANDREW COTREAU

SPECIAL PRIZES

When the admissions office accepted him in the spring of 2003, they were impressed by the great promise that his record forecast. He has more than lived up to his potential and in the process, positively impacting the intellectual and artistic life of the Academy. His academic accomplishments have been superb; a National Merit Scholarship semi finalist and a commended Advanced Placement Scholar; he has always elected the most rigorous and challenging program of studies and has consistently earned high honors recognition. He reads, writes and speaks with insight, clarity, emotion and logic. He projects to the outside world an intense seriousness of purpose but those who know him best see and appreciate his creativity and sense of humor. As a singer, he was accepted to the All-Eastern Music Festival as a junior, the first GDA student to be selected for this prestigious event since 1998. What makes this an even more remarkable accomplishment is that he has never had a formal voice lesson in his life yet he performs with the nuances and skill of someone who has studied voice for years. He has demonstrated equal proficiency as a musician. He is one of the most talented pianist who has ever graced the stage of the PAC. His skill is enhanced by a remarkable and conscientious work and practice ethic. His audiences are never disappointed by his performances. He was a co-editor of the Governor and brought the same level of commitment and energy to the production of the paper as he did his academic responsibilities and his music. It is my pleasure to present this Special Prize to:

ALEXANDER DAVIS CROSETT IV

Mark Twain advised that one should always work like you don't need the money. Always fall in love like you have never been hurt and always dance, always dance like nobody is watching. This young woman has brought enthusiasm, curiosity and an admirable work ethic to her studies. Her grade point has seen a steady progression into the honors range but it has been the joy of learning rather than grades per se that provides her with satisfaction. She has brought kindness, loyalty, unselfishness, joyousness and genuine commitment to her many extracurricular involvements; dorm proctor, FLIP leader, ADL trainer and Discipline Committee member. And she has danced and danced and danced. In her case, people have watched and have been dazzled by what they have seen. By being who she is, she has danced her way into our hearts.

Lord Byron could have had her in mind when he wrote: On with the dance Let joy be unconfined no sleep till morn When youth and pleasure meet to chase the glowing hours with flying feet. This special Prize is awarded to:

LAUREN MARIE BUDD

She arrived on campus a quiet and shy young girl. She leaves as a young woman as eager to share her opinions as her irreverent humor and infectious laughter. Clearly someone who embodies the ideals of GDA – participation, enthusiasm, love of learning, and willingness to undertake challenges – she will continue to make her mark next year in college. Perhaps what best captures her spirit was her approach to ice hockey. As a freshman she was not exactly Hans Brinker; she could barely skate and was frustrated by everything from the bulky equipment to her limited skills. But quit? Not a chance. "Quit" is not in her vocabulary. Instead, this young woman consistently eschews the easy road and tackles the rough terrain with impressive results— whether it's The Milestone, AP classes, Harvard Model Congress, or yes, ice hockey. This special award goes to a member of the 2010 Class of New York University,

MORGAN ELIZABETH BRADFORD

His preference is to go about his daily responsibilities in splendid obscurity avoiding fanfare and attention. This is a difficult proposition because he has involved himself in so many aspects of campus life. His inherent modesty and humility notwithstanding, the record he has compiled warrants notoriety. He has captained three varsity teams excelling on the soccer pitch, the wrestling mat and the tartan track. He inspired his teammates with his quiet intensity, determined work ethic and love of competition. He has been a Dormitory and Student Center Proctor, a FLIP leader, a Head Tour Guide, A Special Olympics Head Volunteer and an ADL member. In each of these endeavors, his commitment has been considerable and his impact significant. From modest academic beginnings, he has evolved into a competent scholar earning honors grades. He has done this the old fashioned way through discipline, conscientious effort and full bore energy. Teachers appreciate the commitment to learning he brings to the classroom. He has made the most of his opportunities at the Academy but in the process has served his school well.

RYAN JOHN BECKER

This able and ambitious young gentleman entered the Academy in the ninth grade year and has been charting a demanding course for himself ever since. He is a serious student, reliable, dedicated and purposeful. His character is unimpeachable and in the core of his being is a well developed and intrinsic concern for others.

He joined the chorus in his sophomore year and his talent quickly became apparent. He became a mainstay of The First and was selected to represent GDA at the Northeast Massachusetts District Chorus. His repertoire has been varied, creative and pleasing to the ear. He has performed his own compositions, sung familiar stand bys and experimented with Italian librettos just to try out the language. He was the envy of every young man on campus when he was cast as only male in a memorable dance routine with a number of dazzling young ladies. This epitomized everything he has done at GDA; he performed with style, confidence and unassuming grace. It has been a privilege to have him here.

GIOVANY R. MORALES

Playing third base on a softball team is not a position for the faint of heart. This infielder perilously positions herself on her toes approximately 20 feet from the batter, relying on courage and reaction time to sustain her. She is prepared to defend

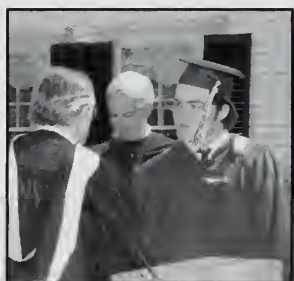

her territory tenaciously, to sacrifice her body, risk humiliation in order to take the first stab at any ball hit to the left side. She is both a cornerstone, a defense in the protection of home, and a contributing member of the greater team. The recipient of this special prize has approached her four years of high school not unlike a third baseman on a softball squad. She has played virtually every position on the field that is high school, and she has played those positions well. She has taken numerous challenging accelerated and Advanced Placement courses. She has prepared assiduously for class and she has thrown herself time and time again into the foray of discussion, sharing her opinions passionately and risking defeat or rejection. She is a three sport varsity athlete whose sense of team comes before her sense of self. She served on the discipline committee; she headed Events for the Special Olympics. She is a peer advisor, a head tour guide, a member of ADL. She co-presided over a tremendous set of voice concerts this year. She dedicates herself to the game, be it academic, athletic, community or arts and plays for the sake of her team. And, by the way, she is the third baseman for the softball team. We award this special prize to:

GDA
Class of 2006

Editors' Closing

Some people say, "You never know what you have until it's gone." That's usually the case in most instances, but one instance in particular stands above the rest and proves that saying to be incorrect. Our experience at Governor Dummer Academy is one that has not gone by unappreciated and unacknowledged. This place is more than just a school to all of us; it is a friendly place, a comfort zone, but most of all a home, and the great thing is you don't need to be a boarder at GDA to call this place home. GDA is a place for everyone. Whether you like to indulge in the camaraderie of your classmates and friends for hours in the dining hall or whether you like to spend countless hours watching the big screen tv in the student center with everyone from Chris and the Weirs to your best friend, GDA definitely has a home-like atmosphere. This warm atmosphere is without a doubt the inspiration that fuels the Milestone. Besides the ten months we spent creating the yearbook in the basement of Parsons, it practically created itself. This is a compilation of your pictures, your stories, and your experiences in order to yield the finished product of your yearbook. We would like to thank everyone who in some way helped cluster these memories into this one book. Although the name of the school has changed, we know that the people will not change, and after all it is the people who make the school what it is. As you thumb through these pages years and years from now, think of the people here who touched your lives and know that in no way did we have to embellish the truth to make this place sound great. Thank you to everyone who made Governor Dummer Academy what it was. We will miss every one of you.

-Jane and Morgan

Along with thanking our staff and anybody who helped put this book together, we would like to thank Mr. Oxton for his tireless work all year, late at night and even over summer vacation.

Without his help, this book would not exist. Thank you, Thank you, Thank you!
